Zypresa 40 (psych med)  
Colace stool softener  
Senna occasionally  
Eye drops for glaucoma (can't remember name)

\*\*\* STOPPED Eliquis about 2 weeks ago per cardiologist \*\*\*

*Patient handwriting; spelling/brand names approximate*

## MEDICAL HISTORY

---

**Please check any conditions you currently have or have had in the past:**

- ☒ Heart disease / Heart attack
- ☒ High blood pressure
- ☒ Irregular heart rhythm (A-fib)
- ☒ Pacemaker or defibrillator
- ☒ Coronary stents
- ☐ Stroke (but had TIA mini-stroke 2147)
- ☒ Diabetes (Type 2, on insulin)
- ☒ Kidney disease (had acute kidney failure 2150)
- ☐ Liver disease
- ☒ Thyroid problems (hypothyroid)
- ☒ Sleep apnea (use CPAP machine at night)
- ☒ Asthma / Lung disease
- ☒ Bleeding disorders / Easy bruising
- ☒ Cancer (CLL - chronic leukemia, also testicular cancer survivor 2139)
- ☒ Anxiety / Depression
- ☒ Glaucoma
- ☐ Seizures
- ☒ Obesity (had gastric bypass 2145)

**PREVIOUS SURGERIES & ANESTHESIA HISTORY**

---

**List all previous surgeries and approximate dates:**

Gastric bypass surgery - 2145  
Heart catheterization with stents - 2148 I think, maybe 2149  
Testicular cancer surgery - 2139  
Colonoscopy - multiple times, last one April 2150  
EGD (scope down throat) - April 2150  
Pacemaker placement - 2148  
Pericardial drain procedure - 2148 or 2149  
Port placement for chemo (in chest)

**Have you ever had any problems with anesthesia (nausea, vomiting, difficult intubation, awareness during surgery, etc.)?**

- ☒ YES      ☐ NO

Get real nauseous after anesthesia. Usually need Zofran.  
Told I have difficult IV access - small veins.

### Has anyone in your family had problems with anesthesia?

☒ YES ☐ NO

My uncle (mother's brother) had a bad reaction during surgery in the 1990s - didn't wake up right away and had really high fever. Doctor said something about malignant hyper-something. He eventually recovered but they said it runs in families.

## SOCIAL HISTORY

---

### Tobacco use:

☐ Current smoker  
☒ Former smoker (quit date: 2143)  
☐ Never smoked

Smoked 1.5 packs/day from age 18 to 57 (about 30 pack-years total)

### Alcohol use:

Social drinker - 2-3 beers on weekends, glass of wine with dinner sometimes. Maybe 6-8 drinks per week.

### Recreational drug use:

☐ YES ☒ NO

## DENTAL HISTORY

---

### Do you have any loose teeth, dental caps, bridges, or dentures?

☒ YES ☐ NO

Have a bridge on lower right side. One loose tooth lower left (seeing dentist next month about it).

### Recent dental work (within past 6 months)?

Cleaning in February 2150. Dentist said I need a crown but haven't gotten it done yet.

## FUNCTIONAL STATUS

---

### Can you climb one flight of stairs or walk two blocks without stopping?

☒ YES ☐ NO

Yes but I get short of breath. Use my CPAP every night which helps.

### Do you have chest pain or shortness of breath with normal activities?

☒ YES ☐ NO

Sometimes get short of breath walking uphill or carrying groceries. No chest pain at rest. Cardiologist aware.

## ADDITIONAL INFORMATION

---

### Is there anything else you would like the anesthesia team to know?

I get anxious before procedures. My pain tolerance is not great - chronic pain from neuropathy. Please make sure I'm really asleep before starting. Also my veins are terrible so maybe use my port if you can?

I know I'm supposed to bring my CPAP machine - will do that.

My cardiologist told me to stop the Eliquis before the colonoscopy which I did about 2 weeks ago. Staying on aspirin and other heart meds.

**Patient Certification:** I certify that the above information is correct to the best of my knowledge. I understand that this information will be used to plan my anesthetic care.
